Alex Rivera

alex.rivera@example.com · +44 20 7946 0100 · London, UK · linkedin.com/in/example-alex-rivera

SUMMARY

Senior product engineer with eight years building customer-facing web platforms. Comfortable owning a feature end to end — discovery, TypeScript/React front end, Node services, and the metrics that show whether it worked. Most recently led a four-engineer team through a checkout rebuild.

EXPERIENCE

Senior Software Engineer — Northwind Retail Group

London, UK · March 2021 – present

- Led the rebuild of the checkout flow in React and TypeScript, cutting median time-to-purchase from 94s to 61s.
- Introduced a shared component library used by three product teams, replacing four divergent design implementations.
- Reduced p95 API latency on the basket service from 820ms to 240ms by adding read-through caching and removing N+1 queries.
- Mentored two mid-level engineers, both promoted within eighteen months.

Software Engineer — Kestrel Analytics

Manchester, UK · July 2018 – February 2021

- Built the reporting front end (React, D3) used by 600+ business customers.
- Migrated a monolithic Express app to five Node services, shipping incrementally with no customer downtime.
- Added end-to-end tests with Playwright, taking release regressions from roughly two per month to under one per quarter.

Junior Developer — Harbour Digital

Leeds, UK · September 2016 – June 2018

- Delivered client marketing sites in JavaScript and PHP for small and mid-size businesses.
- Automated the deployment pipeline, reducing a manual half-day release to a ten-minute job.

SKILLS

TypeScript · JavaScript · React · Next.js · Node.js · PostgreSQL · Redis · GraphQL · REST · Docker · AWS (ECS, S3, RDS) · Playwright · Jest · CI/CD · accessibility (WCAG 2.1) · technical mentoring

EDUCATION

BSc Computer Science — University of Leeds

2013 – 2016 · First class honours
